

Exercise Notebook Machinery

Exercise Notebook Machinery

ACME Disc Ruling Machine

SPECIAL FEATURES:

The Machine is very Simple and Practical in Construction. It has all its parts in full view, which allow on easy understandin and working .A man with a little experience on paper Ruling machines will have no difficulty in operating it. Anybody with little through or study, can be able to set and drive it. Itavoids smearing of ruled sheets with its during track. It Rules on both sides of the paper in one traveling direction, either straight-graph or stop, in one or two colours at a time

TECHNICAL SPECIFICATION

Size	36" 900 mm.
Type	Two Side-Two colour- Two Stop
Floor Space	6' x 8'
Power	2 H.P.
Gross Wt.	2000 Kgs.
Nett Wt.	1500 Kks. (1500 Kgs)

ACME Fully Automatic Ruling from Roll to Sheet

Two Feint Ruling head on each side of the web with brass disc of 45 mm dia. (Standard Ruling Dics) and one or two flexo head for Margin line and day and date or any other requirement Printing with rubber or Photo Polymer stereo.

MAIN FEATURES

- Faint ruling in 2 color
- Static eliminator to neutralize paper
- Jogging arrangement
- Counting provided
- Speed increase and decrease is possible
- Inching facility
- Self loading reel stand
- No necessity of oiling in gears
- High pile delivery
- Speed about 150 mtrs. Per minute
- Paper sensor for auto stop
- Reel Width - maximum 86 cms
- Can cut required size of paper by changing gears
- Machine noiseless and smooth in operation
- Ruling disc and spacer are of standard machine
- Imported A.C. very speed control provided with inching facility
- Core diameter - 70 - 110 cms
- Cutting length - 25 - 86 cms
- Floor space - 750 cms x 250 cms
- Net weight - approx. 7000 kgs
- Reel diameter - 120 cms

TECHNICAL SPECIFICATION

SIZE	(Machine Width) - 91 cm (36")
POWER	Main Motor - 3.5 kw (5 H.P.) Web Aligner - 0.75 kw (1 H.P.) High Pile Delivery - 1.5 kw (2 H.P.)

ACME Automatic Counting and Folding Machine

FOLD O MATIC : The Technology of dual operation of automatic counting & folding of sheets in single & double parallel folded blocks. It Minimizes almost all production problems of folding job of exercise note-books & registers. Constant high production without heavy production cost. Rigid Construction quality material ensures long life.

TECHNICAL DATA

Working Size	Length Width Floor Space		Height	Power (Hp)	Heating power (Kw) Max total	Weight approx (kgs)	Total production approx 8 hrs running continuously considering. Full size decal paper of 90 or 100 gms
41 1/2" 104 cms	18'	6 1/2'	6'	5 HP & 2 HP	20 kw 4 heaters	4000	1 ton
51 1/2" 129 cms	18'	7 1/2'	6'	7.5 HP & 2 HP	24 Kw 4 heaters	4500	1.5 tons
62" 155 cms	18'	8 1/2'	6'	7.5 HP & 2 HP	30 Kw 4 heaters	5250	2 tons
74" 185 cms	20'	10'	6'	10 Hp & 2 HP	36 Kw 4 heaters	6000	3 tons

FOLD O MATIC IS EQUAL TO PROFIT

- MORE PRODUCTION IN LESS TIME
 - Ream Feed System reduced labour cost
 - High output reduces production cost
 - Advance technology worth investment
 - Most reasonable price
- Folded & counted sheets at economical price
 - Relief from labour problems
 - International technology at your doorstep

ACME Thread Book Sewing Machine

Backed by decades of research and innovative work, Thread Book Sewing Machine Model KMC 300 Sewing Master has been established as top level product. The Machine is most suitable for commercial production leaving conventional stitcher far behind. The Machine is provided with latest technology and functions.

It is fully enclosed, compact and robust in construction, reliable efficiency and capable for even the intricate block construction. It has very good accessibility to all structural units.

The machine is absolutely free from risk prone possibilities as the same has been provide with ELECTRO MAGNETIC systems for instant magnetic brake in adverse conditions.

The machine contributes to good psychologic and physiologic working conditions. Due to auto-fed lubrication device, the machine free from general maintenance, resulting in good quantum of production.

TECHNICAL DATA

Large Size of book	420 x 250 mm (16 1/2" x 9 7/8")
Smallest Size of book	115 x 100 mm (4 1/2" x 3 7/8")
Net Weight approx.	675 Kg
Gross Weight approx.	910 Kg
Speed	upto 70 sections per minute
Motor	0.37 kw (1/2 HP), 1400 rpm
Space required	Approx. 1.5 x 1.4 m ³ (5' x 4'.7")
Shipping Space	Approx. 2.1 m ³ (2.6 cbc yards)

ACME Book Stitching Machine

PRIVATE

This machine is foot operated and accurate and easy in operation. Also provided with one extra set of wire head plate to stitch more papers. All papers are standard size and available from ready stock.

SIZE :

5/16" Appx. 50 Sheets(Max)

7/16" Appx. 80 Sheets(Max)

9/16" Appx. 150 Sheets(Max)

9/16" Three in one Model.

11/16" Three in one Model: Appx. 200 Sheets.

(Adjustable from 2 sheets to 200 sheets)
